

# Young Pharmaceuticals Announces Exclusive Distribution Partnership with TrulyO2

HARTFORD, CT June 26, 2023

Young Pharmaceuticals, Inc., a leading provider of physician-dispensed skincare, announces an exclusive distribution agreement with Boulder-based TrulyO2, a maker of proprietary topical micro-oxygen delivery products.

“Young is proud to partner with TrulyO2 and introduce this remarkable technology to our market channel of elite plastic surgeons and dermatologists,” says John Kulesza, Young Pharmaceuticals President. The exclusive license includes the proprietary DeepO2 formula and will only be available under private label through Young’s channel of dispensing medical offices and their online stores.

TrulyO2 CEO Bob Scribner says, “We are excited to join forces with Young in the world’s largest dermatology and plastic surgery market. We look forward to leveraging Young’s 40+ years of experience in the aesthetics market.”

The official launch of **DeepO2** will take place August 11-12, 2023, at the AAD Innovation Academy Summer Meeting, Booth #316, in Tampa, FL.

## About Young Pharmaceuticals, Inc.

Young Pharmaceuticals, Inc., based in Wethersfield, CT, was founded in 1977 as a developer of products for dispensing physicians. As transformative ingredients became available for such indications as photoaging, our scientists applied their pharmaceutical chemistry experience to formulating a new generation of aesthetic treatments. Today, Young remains committed to providing innovative medical skincare products to dispensing physicians worldwide.
